Ingersoll Rand to receive a Automotive Communication Award from Women's Board Car Care Council

ANNANDALE, N.J. — November 4, 2010 — Ingersoll Rand, a global leader in vehicle service tools and equipment, has received an Automotive Communication Award (ACA) from the Women's Board Car Care Council for their PR Effort for the launch of the 2015MAX and 2025MAX Hammerhead low-profile Impactools™.

The Women's Board recognizes manufacturers that provide automotive information to consumers and the trade professionals who interact with them on a daily basis. The ACAs recognize for outstanding advertising, marketing, advertising, marketing merchandising and/or effective PR. The award was presented during the Automotive Aftermarket Industry Week in November, in Las Vegas.

The Ingersoll Rand 2015MAX and 2025MAX Hammerhead low-profile Impactools are designed for optimal performance, even in extremely confined spaces. The Hammerhead also features a conveniently located forward/reverse collar, providing unrestricted access to easily change the direction of the tool in tight spaces, where traditional tools frequently get jammed. Knuckle-saver reactionless torque eliminates kickback, and further protects technicians' hands while working in confined spaces.

For more information about Ingersoll Rand tools and equipment, see your local tool professional, call (800) 866-5457, or visit us at ingersollrandproducts.com.
