

MSG[®] TURBO-AIR[®] API Centrifugal Air Compressors

We have a long-standing tradition of providing innovative products and technology that positively affect our customers bottom line. Following in this tradition, the API 672 custom MSG TURBO-AIR API range has been developed through close interaction with our customer base and analysis of their individual application demands.

Features

American Petroleum Institute (API) Standards Compliance:

The list below outlines examples of common API compliance standards for integrally geared centrifugal compressors. We have robust capability to engineer and manufacture compressor packages to comply to additional standards as required on an application-specific basis.

API 672 for packaged, integrally geared centrifugal compressors for petroleum, chemical and gas industry services

API 614 for lubrication systems

API 670 for machinery protection systems

API 671 for coupling systems

Oil-Free, Risk Free The first to be certified ISO 8573-1:2001 Class 0, our oil-free centrifugal compressors offer efficient, economical and reliable solutions for delivering compressed air. These high-performing, versatile compressors

provide 100% oil-free air in all operating conditions.

Class 0 ISO 8573 Oil-Free Air

Model Specifications

Specification	Metric	Imperial
Standard Input Power	93 to 2237 kW	125 to 3000 hp
Discharge Pressure	3.5 to 14.5 barg	50 to 210 psig
Inlet Flow	14.3 to 430 m ³ /min	505 to 15,200 CFM
