

## Modular Heatless Desiccant Dryers 3-24 m<sup>3</sup>/min, 5-41 cfm

Our innovative modular desiccant dryers are compact, fully integrated units that install at point-of-use, so you pay for drying only the air required. They deliver ISO Class 2 dew point performance, with optional ISO Class 1 to help prevent corrosion, minimize production disruptions and losses due to moisture or contamination. And easy on-site maintenance less than 15 minutes after 12,000-hours of use gets you back on line quickly.

### Features

**High Quality:** Air Proven high-performance desiccant technology delivers ISO Class 2 or Class 1 pressure dew point air for critical applications; pre-filter and after-filter protect desiccant and downstream air from oil contamination and particulates

**Point-of-Use Operation:** With a compact footprint and low noise operation (< 75 dBA), modular dryers are suitable to be installed right in the work environment

**Reliable Operation:** High-strength desiccant along with durable valves and components provide extended life

**Reduced Energy Use:** Low pressure drop design saves on energy costs and provides an economical drying solution

**Smart Control:** Easy to use, advanced microprocessor helps to maintain dryer performance at optimum levels, while constantly monitoring functions and provides maintenance alerts as well as protection notifications
